

Sponsorship opportunities »

Commercial sponsorship is encouraged with a range of opportunities to display during the conference. Companies have the opportunity to sponsor various elements of the conference and social program. Any organisations wishing to take advantage of these opportunities should contact the Conference Manager.

The Australian Society for Bulk Solids Handling »

Operating under the auspices of the Mechanical College of Engineers, Australia, the National Committee on Bulk Materials Handling promoted technological advances in bulk materials handling through research, education, design and application over a period of fifteen years. In late 1997 it sought and received approval from the Institution to restructure its operations as the Australian Society for Bulk Solids Handling with the objectives of expanding its activities and bringing together all practitioners in the field of bulk solids handling. The mission of the Society is to enhance the discipline of bulk solids handling through research, education and sound engineering practice. This conference is one of the ways in which the mission of the Society is fulfilled.

Centre for Bulk Solids and Particulate Technologies »

The Centre for Bulk Solids and Particulate Technologies is an Australian Key Centre of teaching and research established under the Australian Research Council's Research Centres Scheme. It is a unique collaboration initiative of The University of Newcastle and the University of Wollongong. The Centre is built upon the strong foundations of education, research and consultancy in bulk solids handling and particulate technologies which have been in place at these Universities for over 30 years.

Further information and enquiries »

Please register your interest in the ICBMH 2019 with the Conference Manager:

Danielle Harris
Conference Manager
C/o Centre for Bulk Solids & Particulate Technologies
The University of Newcastle
NIER Site
Email: Danielle.Harris@newcastle.edu.au
Phone: +61 2 40339039

Prospective authors / attendees are invited to contact the Conference Chairman, Professor Mark Jones, if they need further information:

Mark Jones
Conference Chairman
C/o Centre for Bulk Solids & Particulate Technologies
The University of Newcastle
NIER Site
Email: Mark.Jones@newcastle.edu.au
Phone: +61 2 40339039

Registration Fees

Registration fees include welcome / cocktail reception, conference dinner, morning and afternoon tea and lunches for the duration of the conference.

Early Bird Registration, register before 2nd April 2019 to receive the early bird discount. All prices include GST and are quoted in AUD

\$1,295 Full Rate (3 full days)
\$1,100 Early Bird Rate (3 full days)
\$800 Daily Rate / \$700 Early Bird Daily Rate
\$900 Student Rate (3 full days) / \$770 Student Early Bird Rate (3 full days)
\$600 Student Daily Rate / \$500 Student Early Bird Daily Rate

Conference Venue and Accommodation

Mantra on View Hotel
22 View Avenue, Surfers Paradise Gold Coast
QLD, 4217 Australia
www.mantra.com.au/on-view or Ph: +61 7 5579 1029

Room Rates:
\$155 AUD, with buffet breakfast (single occupancy)
\$165 AUD, with buffet breakfast (double/twin occupancy)

Ocean view rooms available on request.

Please visit the conference website www.newcastle.edu.au/icbmh-2019 for information regarding the program, registration fees, accommodation, venue and social activities.

9 - 11 July 2019

13th International Conference on Bulk Materials Storage, Handling & Transportation

Organised by

Sponsored by

ContiTech

Invitation »

The storage, handling and transportation of bulk solid materials are major activities for a vast number and variety of industries throughout the world. These range from the gentle handling of very small quantities of material in the pharmaceutical and chemical industries to the vast quantities handled and processed by the mining and mineral companies. This diversity is particularly evident in Australia where the wide-ranging nature and scale of operations is somewhat unique.

This 13th International Conference on Bulk Materials Storage, Handling and Transportation follows in the tradition of the previous series of very successful events. Next year's conference will be held at The Mantra on View, Surfers Paradise, located on Queensland's Gold Coast. I would like to take this opportunity to invite you to participate in the conference and look forward to welcoming you to the Gold Coast, Australia, in July 2019.

Professor Mark Jones
Conference Chair

Conference focus »

Considerable advances continue to be made in research, development, application and implementation of the technologies associated with various aspects of bulk solids storage, handling and transportation. This conference will provide a forum to review the state-of-the-art with respect to research and development and promote the exchange of ideas and experiences between researchers and practitioners.

The Conference will be of particular interest to a wide range of industries including:

- Mining and mineral production and processing
- Power generation
- Chemical and petrochemical process industries
- Agriculture and biomass production and processing
- Energy and Environment
- Food industry

Topic areas »

Papers are invited on the following subjects:

Storage and Handling

- Bin, hopper, chute and stockpile design
- Structural design aspects
- Feeding and weighing
- Discharge control systems
- Heavy mobile machines
- Conveyors and elevators
- Blending and sampling

Transportation

- Belt, pneumatic and hydraulic conveying
- Road and rail transportation
- Ship loading and unloading
- Systems studies in handling and transportation

Energy, Resources and Environment

- Storage, feed and transportation of biomass, agricultural and waste materials
- Characterisation
- Waste utilisation opportunities
- Dust and particulate characterisation
- Environmental factors

Related Areas

- Characterisation of bulk solids
- Instrumentation for bulk solids handling applications
- Education and research in materials handling
- Life cycle costing and maintenance of material handling systems
- Mixing, blending and segregation
- Materials handling challenges

Note for intended authors »

Intending authors are invited to submit the titles of proposed papers, together with a brief synopsis of not more than 250 words outlining the aims, content and conclusions of their paper. The scope of papers may focus on any matters relating to the many facets of Bulk Materials, Storage Handling and Transportation. Papers may range from the outcomes of ongoing research through to case studies.

Accepted papers will be peer reviewed and published in the Conference Proceedings. Guidelines for pre-production of manuscripts will be distributed to authors upon acceptance of synopses.

Abstracts can be emailed to
The Conference Manager

Danielle.Harris@newcastle.edu.au

Deadlines »

Receipt of Abstracts
30 November 2018

Notification of provisional acceptance
December 2018

Receipt of full text for review
1 March 2019

A statement confirming that at least one of the authors will attend the conference to present the paper should accompany synopses.
